Please feel free to talk to your dancer's instructor if you have any questions.

Instructors have taken measurements of your child specific to the size chart of the company your child's costume will be ordered from.

If you have a concern regarding the size costume that will be ordered for your child, please feel free to talk to your child's instructor. Our instructors take into consideration that when a student's measurements are borderline in sizes, it is always best to order the larger size to allow for growth and it is also much easier to take a costume in than it is to try to make a costume bigger.

If you have any questions or concerns regarding the above, please call the dance department at **830-5712**.
